HMorix Launches New AI Agent Platform — Sample Press Release

[Subheadline Placeholder]

[Placeholder] HMorix today announced the launch of its next-generation AI Agent platform, designed to help businesses automate customer support, internal workflows, and repetitive operational tasks.

[Placeholder] The platform builds on HMorix's existing AI Solutions offering, adding configurable workflow templates and expanded integration options for small and mid-sized teams.

[Placeholder] Availability and pricing details will be announced separately.

About Test

HMorix is an AI-first technology company that designs and develops intelligent software, modern web applications, AI agents, automation platforms, and digital business solutions, with a mission to make advanced AI and software technology accessible through reliable, scalable, secure, and innovative digital solutions.
